

Hearing Aid Leap Frog

A pantoum

My love and I leap dogs with swords
Accuse the better half, "You muttered"
We duel linguistically our words
And humor bends the sentence uttered

Accuse the better half, "You muttered"
To fill the gaping hearing aid
And humor bends the sentence uttered
Interpret sounds we heard unsaid

To fill the gaping hearing aid
And wonder why the puzzled gaze
Interpret sounds we heard unsaid
We alter words and weave a maze

And wonder why the puzzled gaze
When querying, "A leaping fog?"
We alter words and weave a maze
Wax eloquent on sleeping dog

When querying, "A leaping fog?"
We duel linguistically with swords
Wax eloquent on sleeping dog
My love and I leapfrog our words
